

Reduce Your Carbon Footprint

In one year, you can eliminate 5000 lbs of CO₂

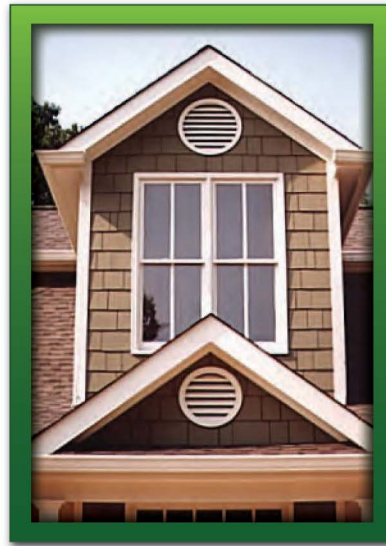

Use stainless steel water bottles (no plastic)

Replace at least 3 regular light bulbs with compact fluorescent bulbs

Switch to a low-flow shower head.

It's that easy!

Benefits of Sustainable Building

High Quality	Healthy
High Performance	Timeless
Efficient	Effective
Durable	Comfortable

We Install Complete Systems

Buying a solar system is one of the best things you can do to help protect our environment and give your family protection from skyrocketing energy prices.

Opting for Clean, Renewable Solar Power is a step toward a wiser, more sustainable human presence on Earth.

The 'Good Stuff' We Recommend

Passive solar orientations with UV filtering shades on southern side

Tree Preservation

Energy Star HVAC system with efficient heat exchanger

Energy Star Appliances and Energy Saving Light Fixtures

Low-Flow Faucets and Toilets

Extra high R-value "formaldehyde free" Cellulose and Icynene Insulation

Low and zero-VOC paints

Carpet made from natural wool and recycled plastic - Look for the "Green Seal"

Floors made of FSC-Certified wood and cork

Sustainable, Energy Efficient windows
